## About Us

Created in 2024 by a European Commission decision upon proposal from Member States, the ALT-EDIC supports Europe's language technology landscape.

The ALT-EDIC connects EU countries by creating shared linguistic resources, supporting the development of powerful language models, and ensuring transparency and trust through rigorous evaluation.

As of April 2026, the ALT-EDIC gathers 27 members and observers.

## Ongoing projects

European infrastructure  
for scalable language  
tech

Industry-ready LLMs for  
European needs in 5  
strategic sectors

Developing open,  
multilingual LLMs for  
Europe

Bridging research and  
real-world AI applications  
for startups
